

Pelvic, Obstetric and Gynaecological Physiotherapy

Physiotherapy assessment and management of pregnancy related musculoskeletal conditions – Part I

23-25 June 2017

Physiotherapy Department, St Richards Hospital,
Spitalfield Lane, Chichester PO19 6SE

£275-00 POGP member/affiliate
£345-00 Non-member

This recently extended workshop is designed to enable the registered physiotherapist to examine and manage a woman with common pregnancy related lumbo-pelvic problems. The workshop, which takes place over 2½ days, is aimed at physiotherapists already working in women's health as well as the physiotherapist working in a musculoskeletal outpatient setting. It is also suitable for people new to this area of and for those requiring revision or updating in current best practice.

The content will include: review of normal anatomy and physiology of the lumbo-pelvic complex and changes in pregnancy, the theory of normal movement and pregnancy-related changes, the assessment and examination of the lumbar spine and pelvic girdle and the management of lumbo-pelvic pain in pregnancy including functional advice, therapeutic exercise and manual therapy.

Programme objective

To enable the participant to examine and manage a woman with common pregnancy-related lumbo-pelvic problems.

Learning Outcomes

By the end of the workshop the participant will be able to:

- Understand the physiological changes in pregnancy relevant to the physiotherapy management of pregnancy-related lumbo-pelvic problems
- Understand the neuromusculoskeletal structure and function of the lumbo-pelvic complex
- Describe and understand the pregnancy-related altered biomechanics of the lumbo-pelvic complex
- Discuss the aetiology of common pregnancy-related lumbo-pelvic dysfunction
- Have an awareness of the psychosocial influences and emotional needs of the woman during the child bearing years
- Adapt assessment and examination techniques of the lumbo-pelvic complex for the antenatal and postnatal woman
- Develop and adapt a range of skills including manual techniques and exercises for the lumbo-pelvic complex for the antenatal and postnatal woman
- Apply clinical reasoning and analysis to direct physiotherapy intervention
- Understand and promote the physiotherapist's role within the multidisciplinary team particularly with regard to birth

POGP is the CSP-recognised Professional Network for Physiotherapists interested in Women's & Men's Health

Workshop programme

DAY 1

- 1:00 Registration
- 1:15 Welcome and Introduction
The POGP model, obstetric considerations and subjective assessment
- 2:45 Layer 1 – Postural and functional advice: theory
- 3:15 Refreshment break
- 3:30 Layer 1 – Posture and functional advice: practical (if sufficient space)
- 4:00 Layer 2 – Neuromuscular function: theory
- 5:00 Close

DAY 2

- 9:00 Layer 1 – Posture and functional advice: practical (if not completed on Friday afternoon)
Layer 2 – Neuromuscular function: practical
- 10:45 Refreshment break
- 11:00 Layer 2 – Neuromuscular function: practical (continued)
- 1:00 Lunch
- 1:30 Layer 3 – Lumbar spine: theory
- 2:30 Layer 3 – Lumbar spine: practical
- 3:00 Refreshment break
- 3.15 Layer 3 – Lumbar spine: practical (continued)
- 5:00 Close

DAY 3

- 9:00 Review and Prepare
- 9:15 Layer 4 – Pelvic Girdle: theory
- 10:30 Refreshment break
- 10:45 Layer 4 – Pelvic Girdle: practical
- 12:30 Lunch
- 1:00 Layer 4 – Pelvic Girdle: practical (continued)
- 2:00 Practise layers 2,3 or 4
- 3:00 Refreshment break
- 3:15 Layer 5 – Pain States: theory
- 4:15 Review
- 4:30 Close

Please note: the start, lunch and close times will be adhered to, but other timings are included as an indication only. This allows the tutors to conduct the programme with some degree of flexibility according to the needs of the workshop participants.

Refreshments during morning and afternoon breaks are included in your programme fee but lunch is at your own expense.

This course includes practical sessions, which take place in an area set aside for use of the workshop participants (i.e. with no access to those not involved with the course). During the practical sessions you will be using manual techniques on each other in pairs or groups of three. You may be working together in an open gym or outpatient department, rather than a private room or curtained cubicle. In these circumstances, if you consent to act as a model, you may prefer to wear a T-shirt/vest top and shorts. You may not need this clothing on the first afternoon, but we advise you to bring it with you on days 2 & 3.

The following consent and application forms need to be completed and sent with payment to the course administrator as directed on the application form.

Following receipt of your completed application you will be sent a document that includes a series of pre-attendance learning tasks. Whilst not compulsory, these are designed to help you get the most out of the workshop.

POGP WORKSHOP

Physiotherapy assessment and management of pregnancy related musculoskeletal conditions – Part I

23-25 June 2017

Physiotherapy Department, St Richards Hospital,
Spitalfield Lane, Chichester PO19 6SE

CONSENT FORM

I understand that the workshop includes a practical element where I can learn about the assessment and management of pregnancy related lumbo-pelvic conditions by taking part myself and under the guidance of two tutors.

I understand that pregnancy and/or the existence of a musculoskeletal condition will not necessarily exclude me from taking part in a practical session. I understand the importance of disclosing any information to the tutor(s) and /or course organiser

***Please delete and tick the box as appropriate**

- *1. I am willing/not willing to participate as a model in the practical elements of this workshop
- 2. I am aware that I may opt in/out of the practical at any stage
- 3. I am not aware that I am pregnant
- 4. I am not aware that I have any musculoskeletal conditions

I would like to disclose the following relevant information about my health to the tutors;

.....
.....
.....
.....

NB If you would like the opportunity to talk to one of the tutors prior to the workshop, regarding your health, then please contact the workshop organiser and she will put you in touch with the tutors.
