Rehabilitation equipment suppliers

List of suppliers with contact and product
information

Rehabilitation equipment suppliers

List of suppliers with contact and product information

INTRODUCTION

The aim of this information paper is to provide an overview of rehabilitation equipment suppliers and is primarily intended for physiotherapists. At the end of this list are selections of links for those who wish to investigate further sources of information on rehabilitation equipment. These suppliers are mostly based in, or have offices in the UK.

This is not a completely inclusive list of rehabilitation equipment suppliers and any further suggestions for inclusion on the list are gratefully received. Please contact The Library and Information Services on 020 7306 6666 or email: lis@csp.org.uk

Of the suppliers who have web addresses, the criteria used for assessing the quality of information on the sites are as follows:

- Relevance to physiotherapy / rehabilitation
- Comprehensiveness (purpose of equipment, whom it is meant for)
- Content (Detailed? Sufficient communication details?)
- Currency (Is the site regularly updated?)

Disclaimer

This paper contains a list of commercial companies, whose equipment may or may not need further quality assessment by trained professionals. It does not represent a list of recommended suppliers, and is not for use by patients. Any patients wishing to ask about rehabilitation equipment, should talk to their qualified Physiotherapist / Podiatrist / Chiropodist / Occupational Therapist / Orthotist.

3B Scientific GmbH

Rudorffweg 8, 21031 Hamburg, Germany

Tel.: 0049 40 73966 0
