

Pitch Side Physiotherapy Vacancies

Employment:	P/T for Self-Employed Therapists
Salary:	£50 - £250 per Event/Fixture
Closing Date:	30 September 2019
Website:	www.physioscienceuk.com/player-welfare
Contact:	info@physioscienceuk.com

Details:

Physio Science UK provides player welfare services to both professional and amateur sports organisations and independent schools. We are recruiting physiotherapists to cover pitch side first aid and sports injury clinics for sporting events and fixtures.

Our highest demand is in the South East and London region, specifically Brighton; Canterbury; Cobham; Eastbourne; Tunbridge Wells; South East London; and South West London.

We can offer both newly qualified and senior physiotherapists the opportunity to gain sport specific physiotherapy work through pitch side first aid and clinics.

With both regular and ad hoc work available, not only is this a great way to earn money, it is a strategic way to gain vital experience for those looking to apply for ACPSEM accreditation or to move into professional sport or high-performance environments. Shadowing opportunities are also available.

How to apply:

To apply and join our network of physiotherapists please select the 'Join Us' tab on our website www.physioscienceuk.com/player-welfare. A number of documents will need to be uploaded to complete the application.

Please also email us to confirm your interest and to ask any questions info@physioscienceuk.com.

More information can be found on the 'Player Welfare' page on our website www.physioscienceuk.com.

Please note, all therapists are required to have a valid immediate care/sports trauma first aid qualification, child protection training, and a valid DBS (previously known as CRB). We can advise on how to obtain all mandatory training.
