</table>
Concurrent sessions:
a) National standards of physiotherapy in the management of breast cancer  
b) Revision of clinical guidelines for hospitalised patients after coronary by-pass graft surgery  
c) Using the Citizens Charter Mark to measure the quality of service to the public by a physiotherapy service  
d) The holistic approach to the examination and treatment of spinal pain  
Poster Presentations  
Keynote Address: The Cochrane Collaboration and the Cochrane Database of Systematic Reviews  
Concurrent Sessions:
 a) Methodological quality assessment of randomised clinical trials  
b) Physiotherapy and genuine urinary stress incontinence: A systematic review of randomised clinical trials  
c) The efficacy of lumbar traction: Design and results of a randomised clinical trial  
d) The effects and costs of physiotherapy and corticosteroid injections for capsulitis of the shoulder: Design of a randomised controlled trial  
e) Effectiveness of physiotherapy: Stimulus-response relation  
f) Spinal manipulation and mobilisation of low back pain: a systematic review of randomised controlled trials  
g) Managing Parkinson's Disease: Widening the scope of intervention  
h) Adaptation of the Classification of (Dis)abilities for Physical Therapy  
i) Capturing the multiple concepts of functional ability within a clinical thesaurus for electronic patient records  
Poster Presentations  
Keynote Address  
The neurophysiological effects of physiotherapy  
Concurrent Sessions  
a) Placebos - Are they a sham?  
b) A model for improving patient compliance in physical therapy  
c) A description of patient related activities of physical therapists  
d) The influence of age on the rehabilitation of stroke patients  
e) Comparison of early rehabilitation of hemiplegic patients with intracranial aneurysm and intracranial tumour  
f) Functional recovery from peripheral nerve lesion in the rat: Effects of exercise training and chronic stress and the significance of individual psychobiological characteristics. |

| 1992   | CSP Congress  | The Royal Concert Hall, Glasgow | 6-9 October | Physiotherapy 1992;78(5):369            | Concurrent sessions  
1) Follow-up to Founders' Lecture; ii) General papers:  
1 Beyond the fringe  
2 Assessment and rehabilitation of patients with chronic low back pain  
3 Combined therapy services management  
iii) Education papers  
1 Scientific research in Physiotherapy training  
2 Evaluating the outcomes of a post-qualification honours degree in therapeutic studies  
3 Practice, research and education - what is the link?  
Concurrent Sessions  
1) followup to keynote lecture; ii) Neurological papers:  
1 the ten-metre walking test for neurologically impaired patients  
2 Prevention of contractures in elbow flexor and calf muscles after severe head injury  
3 Adverse mechanical tension in neurological patients  
4 Clinical assessment of hemiplegic gait  
iii) General papers  
1 Clinical audit in paediatric physiotherapy services  
2 Can a measure to internalise locus of control influence short-term outcomes of treatment of patients with low back pain  
3 Physiotherapy with older people - staffing levels  
Concurrent sessions  
Physiotherapeutic modalities  
1 Acupuncture and physiotherapy - where east meets west  
2 Exercises for elderly people with dementia: what benefit?  
3 Effects of exercise and abdominal massage on constipation and faecal incontinence in continuing care patients  
4 A pilot project to determine the effects of dance on the gait and body image of people with lower extremity amputations  
iii) Education papers  
1 Learning from practice on a physiotherapy degree course  
2 Health beliefs and health behaviours of nursing, speech therapy and physiotherapy students |

| 1990  | 'Forward to Basics' The Chartered Society of Physiotherapy Annual Congress | Bournemouth Pavilion Theatre | 27-29 September | Physiotherapy 1990;76(5):275 | N                        | Wellcome Archive    | Concurrent sessions
1 'Altering pain patterns in mechanical therapy of the spine'
2 'Informed consent'
3 Free paper sessions
   Session A
   i) 'Individual and time-related variation in conduct and performance during phasic group therapy'
   ii) 'New aspects of physiotherapy in the Home Visiting Programme integrated into a child's upbringing'
   iii) 'Riding and driving - a recreational and therapeutic option for the disabled'
   Session B
   i) 'Rehabilitation/disability/physiotherapy'
   ii) 'An example of case management at Harrowlands, a disability resource centre, in chronic progressive diseases'
   iii) 'An evaluation of crutches'
   Keynote lecture: 'A therapeutic approach to physical disability'
Concurrent Sessions
   Session A
   1 Orthotic management of locomotor disability
   2 The role of clinical diagnosis in physiotherapy
   3 Free paper sessions
   Session A
   i) Does cardiac event affect client response to cardiac rehabilitation courses and life-style changes
   ii) the effect of body weight on lung function
   iii) Physiotherapy versus cough in treatment of cystic fibrosis
   Session B
   i) The structural peer review
   ii) Pride and Prejudice - Observations from clinical practice relating to the psychology of adulthood
   iii) Capturing the basics: The development of a expert system for physiotherapists
   Keynote lecture: Taking a new look at spasticity
Concurrent sessions
1. taking a new look at spasticity (continued)
   Lifting and handling - a reasonably foreseeable risk
   3 Free Paper Sessions
   Session A
   i) An investigation into the effect of the level of education on therapeutic value derived from attendance at back school
